

Black & More provides services to select clients and seek to develop on-going cooperative partnerships.

We believe in the importance of understanding the environment within which our clients operate and recognise the fundamental importance of communication prior to addressing the technical challenges that our technical expertise equips us for.

At Black & More we tailor our service and project team to meet the unique requirements of your project. We are focussed on professionalism, personal integrity and client satisfaction. Beyond the purely technical aspects of our professional services, we ensure that the solution provided meets your need.

Black & More's select client list includes all levels of government and the private sector.

Black & More have particular experience and expertise in the provision of land development and civil infrastructure including project management. Significantly a large proportion of our works have been in remote Indigenous communities.

RECENT PROJECTS

Hope Valley Estate, Hope Vale

Client: Hope Vale Aboriginal Shire Council

Black & More were engaged as consultants to project manage the investigations, detailed design, tendering and construction of 45 residential allotments in Hope Valley Estate Stage 1, Hope Vale. This entailed

- Master planning of the 100 Lot subdivisions and detailed design of Stage 1 being 45 Lots.
- Tendering and procurement
- Supervision of the works during construction including engineering inspections
- Liaising with the relevant authorities in regards to delivery of the subdivision (Council, Ergon and Telstra)
- Provision of reports to Stakeholders with regards to project status, achievement of construction milestones and tracking of project budgets

Cooktown Airport Subdivision

Client: Cook Shire Council

Black & More were engaged as consultants to provide detailed design of 35 lots for the proposed Airport Industrial Subdivision, Cooktown. This entailed

- Roadwork's and earthworks design and documentation including airside access and taxiways
- Investigation, design and documentation of the proposed stormwater network
- Water and sewer reticulation design and documentation
- Investigation and design of water supply, sewer treatment and irrigation options
- Liaison with the relevant authorities and stakeholders

St Paul's Drainage Master Planning and Design & Roadwork's Design, Torres Strait

Client: Department of Main Roads

Black & More carried out Drainage Master Plan (DMP) for the Community of St Pauls in order to assess a variety of drainage problems and to develop a strategy incorporating capital works upgrade and management recommendations.

Black & More subsequently undertook detailed hydraulic design and road design as Stage 1 of the DMP.

AFL Youth Development Academy, Cairns

Client: Cape York AFL

Black & More were engaged as consultants to facilitate planning processes for the proposed Youth Development Academy at 53-75 Buchan St, Portsmith. This entailed

- Stakeholder consultation with Council and DNRW regarding an extended lease over a portion of the subject land
- Preparation of concept layout plans
- General facilities assessment and management (lighting, electrical, drainage etc)
- Preparation of project briefs and liaison with professional consultants (survey, landscape architects, risk assessment)
- Coordination and preparation of a Material Change of Use application seeking approval for the accommodation land use (inconsistent with Cairns Regional Planning Scheme)

Aurukun Business Precinct Building, Aurukun

Client: Aurukun Shire Council

Black & More are currently engaged as the project manager for the procurement and construction phase services of a new precinct facility. This project is being delivered in a partnership with Aurukun Shire Council to support the aspirations of the community to develop sustainable economic development opportunities.

Black & More have worked closely with State and Federal Government agencies to achieve a sustainable outcome for the Aurukun Community.

Badu Island Roads Upgrade, Torres Strait

Client: Department of Main Roads

Black & More completed investigations, planning and design of road upgrades on Badu Island in the Torres Strait. Black & More provided Civil and Drainage Design Services and was also involved in the provision of Construction Management Services.

Ugar Island Roads Upgrade, Torres Strait

Client: Department of Main Roads

Black & More completed investigations, planning and design of road upgrades on Ugar (Stephen) Island in the Torres Strait. Black & More provided Civil and Drainage Design Services and was also involved in the provision of Construction Management Services.
